

RWM consumables – baling tape & baling twine

Riverside's consumables – helping you create the perfect bale

Did you know there's more to Riverside than waste machinery? Drawing upon more than two decades of recycling experience – which has helped UK organisations large and small improve their environmental agenda and yield more revenue – we also stock a range of consumables and accessories to ensure clients produce the perfect bale.

We can even source bespoke products for clients who can't quite find what they're looking for. It keeps customers coming back to us time and again – especially because our consumables are never beaten on like-for-like pricing.

Baling tape

For maximum flexibility and ease of handling, baling tape is a simple, affordable and high quality product that will maintain bale shape without breaking the bank. Suitable for use with any machine, it is guaranteed to ensure a neat bale finish. And because every organisation is different, we offer four types of tape – each with their own breaking strain – meaning every requirement is satisfied.

9mm baling tape – 4 or 8 reels

- ✓ Tape per reel - 250m
- ✓ Breaking strain - 250kg
- ✓ Core diameter - 63mm

16mm baling tape – 4 reels

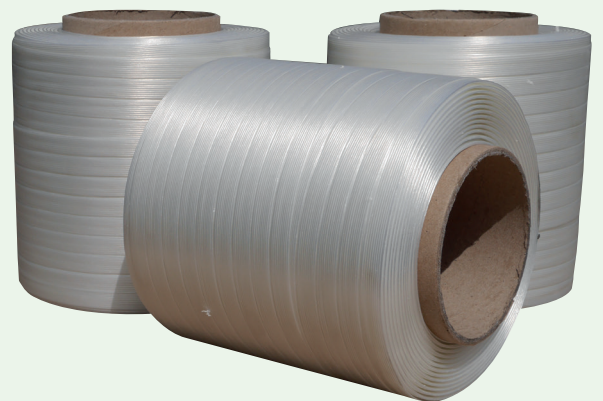

- ✓ Tape per reel - 425m
- ✓ Breaking strain - 486kg
- ✓ Core diameter - 63mm

13mm baling tape – 4 reels

- ✓ Tape per reel - 500m
- ✓ Breaking strain - 400kg
- ✓ Core diameter - 63mm

19mm baling tape – 2 reels

- ✓ Tape per reel - 400m
- ✓ Breaking strain - 575kg
- ✓ Core diameter - 63mm

RWM consumables - baling tape & baling twine

Baling twine

They say old techniques are sometimes the best. So, for organisations who prefer the more traditional way of securing their bales, we offer this robust baling twine. Whilst not as commonly used as our baling tape, twine is an easy and cost-effective tying method for customers with the knack! Suitable for use with all vertical machines, it is popular among clients who have always relied on this consumable product.

Baling twine - 4 or 8 reels

- ✓ Reel length - 306m
- ✓ Reel diameter - 180mm
- ✓ Breaking strain - 250kg
- ✓ Core diameter - 63mm

Not found the consumables you're looking for?
