

RWM consumables & accessories

Riverside's consumables & accessories – helping you create the perfect bale

Did you know there's more to Riverside than waste machinery? Drawing upon more than two decades of recycling experience – which has helped UK organisations large and small improve their environmental agenda and yield more revenue – we also stock a range of consumables and accessories to ensure clients produce the perfect bale.

Baler hooks

The baler hook helps bring twine or tape from the back of the machine to the front, making this a handy baling aid that eases the tie-off process. Compatible with all machines within Riverside's range, this is a very simple product designed with the operator in mind.

Benefits

- ✓ Makes baling quicker, easier and more efficient
- ✓ Suitable for use with baling tape and twine
- ✓ Compatible with all balers
- ✓ Prevents operator from bending/leaning into the machine

The detail

- ✓ 1050mm long
- ✓ Sold as a single unit
- ✓ Made from strong yet lightweight high tensile steel

Baler trolley

When the target bale weight has been reached, this lightweight trolley aids the easy removal of the bale itself. Suitable for use with the compact vertical balers within Riverside's range, the trolley is easy to manoeuvre, which protects operator wellbeing whilst getting the machine ready for the next feed!

Benefits

- ✓ Lightweight and easy to manoeuvre
- ✓ Protects operator wellbeing
- ✓ Ensures baling efficiency
- ✓ Perfect for compact vertical balers without an auto-ejection mechanism
- ✓ Can be stored upright when not in use

The detail

- ✓ Suitable for use with bales of up to 75kg
- ✓ 1200h x 550w x 650d mm
- ✓ Black

Not found the consumables you're looking for?

There are so many products in our consumables range that it's impossible to highlight everything. So, if you haven't found what you're looking for or you need something specific, please contact Riverside on **01423 325038** or **sales@wastemachinery.co.uk**.
